REMARKS

The remarks presented herein are believed to be fully responsive to the Detailed Action of March 28, 2007. Accordingly, reconsideration is requested.

The Detailed Action states that Applicant did not elect a Species from Group B. Thus, an election of all species was not made pursuant to 35 U.S.C. §121.

Accordingly, Applicant elects Species B1 from Group B for prosecution in the present application. Claims 6, 22, 37, and 52 are all readable on the Species B1.

Accordingly, in view of the above election of Species B1 and the previous election of Species A1, and the remarks in the Response of February 28, 2007 suggesting that claim 1 is a generic claim, an action on the merits of claims 1-65 is earnestly requested.

Should the Examiner have any questions or need further information, Examiner Prakasam is requested to call the undersigned attorney.

Respectfully submitted,

JANNIS MOUTSOKAPAS
